1.0- Introduction

Below documented guidelines are considered as part of the Central Bank of Bahrain ("CBB") and Bahrain Bourse ("BHB") requirements to develop frameworks and practices relating to the risk management systems and controls within the financial institutions.

The purpose of these guidelines are to unify and intensify the handling of insider-trading issues in Ithmaar Holding B.S.C. (the "Company") and thus increase confidence in the Company's operations. The trading practices of the insiders shall be such that they do not undermine such confidence.

These guidelines reflect common practices exercised by prudently managed listed companies / financial institutions. Many listed companies / financial institutions are already meeting these requirements and therefore the benefits of the guidelines in terms of enhanced public confidence will be more than proportionate to the cost.

These guidelines are also applicable to the Company's directly held key operating subsidiaries (including their employees), namely Ithmaar Bank B.S.C. (c) and IB Capital B.S.C. (c).

2.0- Definitions

A person is also considered to be the "beneficial owner" of securities if that person has the right to acquire such securities within a certain period of time, either by option or other agreement. Beneficial owners include persons who hold their securities through one or more trustees, brokers, agents, legal representatives or other intermediaries, or through issuers in which they have a "controlling interest", which means the direct or indirect power to direct the management and policies of the issuer, or any other entity in question.

The CMSD– means the Capital Markets Supervision Directorate at CBB.

The husbands, wives, immediate families and those under the control of insiders may also be regarded as insiders.
